MUHAMMAD AKIB ANJUM

MERN Stack Developer | React.js Enthusiast | Front-End Developer

+880 1985-326982 | akibanj2017@gmail.com | **Linkedin** | **Github** | **Portfolio**

Dhaka, Bangladesh

CAREER OBJECTIVE:

I am a **MERN Stack Developer** with hands-on experience in **HTML, CSS, Tailwind, JavaScript, React.js, Firebase, MongoDB, Express.js, and Node.js**. I enjoy building scalable, user-friendly applications and thrive in solving complex problems through clean, efficient code. I aim to contribute my full-stack expertise to create impactful digital solutions while growing into a senior developer role aligned with the company's vision.

SKILLS AND TOOLS:

- **Front-End:** HTML, CSS, Tailwind CSS, JavaScript, React.js, React Router
- **Back-End:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Database:** MongoDB, MongoDB Atlas
- **Tools & Platforms:** Firebase, Git & GitHub, Vite, Netlify, dotenv, CORS, Vercel
- **Interpersonal Skills:** Communication, teamwork, adaptability, problem-solving, and time management.

PROJECTS:

Technologies: HTML5, CSS3, TailwindCSS, JavaScript, ReactJS, ExpressJS, MongoDB, NodeJS, Firebase

PlantPlanet - Plant Care Tracker   **Live Link** | **Client-Repo** | **Server-Repo**

Plant Care Tracker is a mobile-responsive web app that helps plant enthusiasts manage records, schedule watering, and monitor overall plant health.

Features:
- **Plant Management** – Add, update, delete, and track plant details with secure authentication.
- **Care Scheduling** – Watering reminders with sort & filter options for efficient plant care.
- **Enhanced UX** – Responsive design, dark/light mode, and interactive UI with toasts, modals, and tooltips.

ServView - Service Listing Platform   **Live Link** | **Client-Repo** | **Server-Repo**

ServView is a dynamic service listing platform with full CRUD operations, authentication, and interactive search and review features.

Features:
- **Authentication & Security** – Email/Google login, JWT-based API access, and protected routes.
- **Service Management** – Add, update, delete, and view services with user-specific dashboards.
- **Interactive UI** – Search, filter, reviews, and animations powered by React, Framer Motion, and dynamic feedback tools.

Ghotok BD – Matrimony Website   **Live Link** | **Client-Repo** | **Server-Repo**

Ghotok BD is a full-featured matrimony platform built with the MERN stack, enabling users to create biodatas, search for partners, and connect securely with premium features.

Features:
- **User & Admin Dashboards** – Manage biodatas, favorites, contact requests, and success stories with admin controls for approvals.
- **Advanced Filtering & Search** – Filter biodatas by age, type, and division with pagination support.
- **Secure Payments** – Stripe integration for premium contact requests with admin approval workflow.

EDUCATION:

Bachelor of Science - Computer Science and Engineering (CSE)   **2024 - Present**

American International University - Bangladesh (AIUB)   Current CGPA: 3.93 (Up to 3 Semester)

LANGUAGE:

- Bengali (Bangla): Native
- English: Professional proficiency
- Hindi: Fluent
